

## PROUD TO BE YOUR COMMUNITY HOSPITAL FOR OVER 50 YEARS

### About Us

Doctors Medical Center (DMC) located in Modesto, California, is the largest full-care hospital between Sacramento and Fresno and from the Sierras to the San Francisco Bay Area with a 398-bed general acute care capacity and a 67-bed inpatient psychiatric capacity.

DMC is one of the largest employers in Stanislaus County with 2,600 plus employees and over 150 volunteers.

Over 25,000 patients are admitted annually and more than 100,000 patients are treated in the emergency department each year.

DMC was established in 1962 by a group of local physicians to provide healthcare services to the community. Today, DMC provides the Central Valley and surrounding area with exemplary medical care and with some of the finest medical specialists in the field, providing some of the most advanced technologies and progressive treatment protocols available.

Patients at DMC have access to more than 600 physicians representing almost all major specialties and subspecialties. DMC is equipped to meet the region's growing needs in the areas of trauma, cardiothoracic, high-risk obstetrics, neonatal intensive care, neurosciences, oncology, orthopedic and psychiatric services.

DMC is fully accredited by the Joint Commission and licensed by the State of California Department of Health Services (General Acute Care Hospital and Clinical Laboratory).

## Serving Our Community

It is the philosophy of Doctors Medical Center to be an active member of the community. The hospital maintains relationships with health, welfare, educational, civic and cultural organizations through contributions and participation at various levels of these organizations. Hospital employees are active with these organizations as board members, instructors, committee members, advisors or general volunteers.
